Note. I was unable to find the corner on
the South Boundary answering for the above
sections, I therefore had to retrace the Range
line between Ranges 9 & 10 South from the
"Old Indian Boundary" line, to the South
East corner of Township N. 24 N. of Range
N. 10 W. from thence West 80 chs. at which
place, after making diligent search I was
unable to find a corner for the above named
sections. I run North one mile, thence
East to the Range line between Ranges 9 &
10, and found that the bearing and distance
would close at the proper corner on said
Range line. I then measured westward to
the intersection with the State line.

The distance fell short of the distance repres.

Note. There is a small creek, to wit: The
head waters of the Vermillion, which comes
into this Range in Section 24 from the East
which you have drafted upon the Plat in
the old surveys. That immediately sinks
or disappears so that I have not marked
its course on this plat.

It does not make its appearance for several
miles again.

I hereby certify that in pursuance of a
contract with M. T. Williams, Surveyor Gen-
eral of the United States for the States of Ohio
and Indiana, and the Territory of Michigan,
bearing date May 26th 1834, and in strict
conformity to the Laws of the United States,
and the Instructions of the said Surveyor
General, I have surveyed and subdivided
into sections fractional Township N. 24 North
in Range N. 10 West of the second Principal

Meridian, in the State of Indiana;
And I further certify, that the foregoing
are the true and original Field Notes
of said survey and subdivision executed
as aforesaid.
